Dear Hiring Manager,

Hi, I'm Prasad Bhosle. I'm a passionate web developer and programmer.

With almost three years of experience in frontend development, specializing in HTML, CSS, JavaScript, JQuery, Adobe Experience Manager (AEM) and React. I have successfully designed, developed, and maintained responsive web applications that prioritize user experience and accessibility.

I am dedicated to staying updated with the latest frontend technologies and best practices, allowing me to adapt quickly to evolving project requirements and industry trends.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experiences align with your needs.

Sincerely,

Prasad Bhosle

## Education

---

- **Thakur College of Engineering and Technology** 2019  
B. E.  
6.5

## Experience

---

- **Teknopoint** 15/12/2021 - - Present  
HTML, CSS, JAVASCRIPT, JQUERY, REACT, AEM  
Experienced Frontend Developer proficient in HTML, CSS, JavaScript, jQuery, Adobe Experience Manager (AEM) and React. With almost 3 years of hands-on experience, I have contributed to the development and maintenance of dynamic web applications, ensuring seamless user experiences and adherence to best practices in web development.

## Skills

---

- HTML, CSS, JQuery, Javascript, AEM
- React.js, Node.js, MongoDB, Tailwind, Express.js
- Team Building, Problem Solving, Decision Making

## Projects

---

- **Beautiful Homes - Asian Paints (May 2024 - Present)**  
Currently developing and implementing a responsive web interface for the "Beautiful Homes" project under the "Asian Paints" client. Utilizing Adobe Experience Manager (AEM) for content management, I am designing and coding the user interface with HTML and CSS to ensure cross-device and cross-browser compatibility. Implementing interactive features and dynamic content with JavaScript and jQuery to enhance user engagement and functionality. Collaborating with designers and back-end developers to integrate AEM components seamlessly and create a cohesive and visually appealing user experience.
- **Tata AIA Customer Portal (Jan 2023 - April 2024)**  
Lead the design and implementation of a sophisticated login portal, utilizing a comprehensive toolkit including HTML, CSS, JavaScript, jQuery, Adobe Experience Manager (AEM) and React. Orchestrated the development process from concept to execution, focusing on user-centric design principles and seamless functionality. Employed innovative techniques to enhance security measures while optimizing user experience. Through collaborative problem-solving and meticulous attention to detail, delivered a polished solution that redefined user authentication standards, setting a new benchmark for accessibility and efficiency.
- **Bajaj Travel (Dec 2021 - Dec 2022)**  
Proficiently contributed to the completion of a comprehensive flight booking project, employing a diverse tech stack encompassing HTML, CSS, JavaScript, jQuery, Adobe Experience Manager (AEM). Demonstrated expertise in front-end development and integration, resulting in a seamless user experience and robust functionality. Played a pivotal role in delivering a high-performance platform that sets new standards for efficiency and user satisfaction. Successfully showcased innovative solutions and attention to detail, culminating in the realization of a cutting-edge travel booking experience.

## Personal Projects

---

- **E-commerce Website MERN Stack with Razorpay Integration and Spring Boot Admin Panel**

Designed and developed a comprehensive Online E-Commerce Website, leveraging the MERN (MongoDB, Express.js, React.js, Node.js) stack for the frontend and backend. The project includes advanced features such as a secure payment gateway using Razorpay and an efficient admin panel powered by Spring Boot.

**Key Achievements:**

**Frontend Development:**

Implemented a responsive and intuitive user interface using React.js.

**Backend Development:**

Designed and developed RESTful APIs using Node.js and Express.js to handle products. Utilized MongoDB for database management.

**Payment Gateway Integration:**

Integrated Razorpay for secure and efficient online transactions, enhancing the user experience during the checkout.

**Admin Panel with Spring Boot:**

Designed and implemented an admin panel using Spring Boot, allowing administrators to manage inventory, user accounts, and orders efficiently.

- **BookStore MERN Stack**

Developed a dynamic and user-friendly Online Bookstore Website using the MERN (MongoDB, Express.js, React.js, Node.js) stack. This project showcases my proficiency in full-stack development and incorporates a range of technologies to deliver a seamless user experience.

**Key Achievements:**

**Frontend Development:**

Implemented a responsive and intuitive user interface using React.js, enhancing the overall user experience.

**Backend Development:**

Designed and developed RESTful APIs using Node.js and Express.js to handle book inventory. Utilized MongoDB for database management.
